EURO Journal on Decision Processes

Call for Featured Papers on Healthcare Policy and
Management

Guest Editors

Alec Morton (University of Strathclyde)

The Association of European
Operational Research Societies

Marion Rauner (University of Vienna)
Greg Zaric (Ivey Business School, Western University)

Motivation

Healthcare decision makers such as government health authorities, insurers, hospitals as well as manufacturers of pharmaceuticals and medical devices are working under unprecedented strain caused by budgetary constraints, system reform, demographic and technological change. In this setting, **EURO Journal of Decision Processes (EJDP)** will explore how operational research (OR) and health economic modelling help address these challenges and aid decision makers in choosing appropriate policy actions.

Contents

The Guest Editors seek state of the art reviews and research that demonstrates how decision makers can systematically deal with the strategic and policy challenges facing governments and healthcare organisations. Submissions which straddle the divide between OR and health economics are particularly welcome. Topics of particular interest include:

- analysis of the strategic challenges facing healthcare systems or organisations
- case studies of particular strategic or policy planning processes
- studies in healthcare financing
- advances in modeling of healthcare need or demand
- comparative analysis of different institutional structures or delivery systems
- performance measurement or management systems for healthcare providers
- innovations in appraisal methods for healthcare technologies
- empirical studies of healthcare system behaviour with policy implications

Established by the **Association of European Operational Research Societies (EURO)**, EJDP publishes research that advances the understanding and appropriate use of operational research in supporting decision making processes (see <http://www.springer.com/40070>).

Schedule

Prospective authors are welcome to submit a full paper to the EJDP Editorial Manager (<http://ejdp.edmgr.com/>, article type **SI: Healthcare**) at their earliest convenience but at the latest by **September 30th, 2014**. The authors can also submit a two-page extended abstract of their proposed contribution to the Guest Editors for feedback (alec.morton@strath.ac.uk). Accepted papers will be published online soon after acceptance and they will appear in print in late 2015.

EURO Journal on Decision Processes Call for Featured Papers on Collaborative Decision Processes and Analysis

EURO
The Association of European
Operational Research Societies

Guest Editors

Pascale Zaraté (Toulouse University)
Fátima Dargam (SimTech Simulation Technology & ILTC)

Motivation

Across most application areas, several trends and technologies are making it possible for decision makers at different levels of organizations to reach decisions faster by improving their collaborative decision processes. These processes involve much more information than before, and they are also increasingly decentralized and distributed. Moreover, experiences from best practices in making decisions on business applications suggest that collaborative platforms need to be equipped with strong analytical capabilities in order to make the most use of available data. In this setting, **EURO Journal of Decision Processes (EJDP)** will explore methodological advances on the topic of "Collaborative Decision Processes and Analysis".

Contents

The Guest Editors seek state of the art reviews and research papers that demonstrate that how decision making professionals have sought to implement and use Collaborative Decision Processes and Analysis to address timely challenges. Topics of particular interest include but are not limited to: Decision Dashboard Analysis; DM Social Networks Analysis; Web Semantic for Collaborative Decision Processes; Group Preferences Co-Decisions.

Established by the **Association of European Operational Research Societies (EURO)**, EJDP publishes research that advances the understanding and appropriate use of operational research in supporting decision making processes (see <http://www.springer.com/40070>).

Schedule

Prospective authors are invited to submit a full paper to the EJDP Editorial Manager (<http://ejdp.edmgr.com/>) and to send a copy via email to <Pascale.Zarate@univ-tlse1.fr> and <f.dargam@simtechnology.com> by **October 1st, 2014**, at the latest.

The planned schedule of publishing the papers is as follows:

Submissions deadline : 1 October 2014
Feedback to authors: 10 December 2014
Revised papers deadline: 15 March 2015
Publication of papers: Late 2015

EURO Working Group on Transportation

EWGT 2015

Delft, The Netherlands, July 14-16, 2015

EURO

The Association of European
Operational Research Societies

It is our great pleasure to announce that the 18th meeting of the EURO Working Group on Transportation (EWGT) will be held in Delft, the Netherlands, in July 2015. The conference is organized by the Delft University of Technology and is held under the patronage of the EURO Working Group on Transportation (EWGT) and The Association of European Operational Research Societies (EURO) and the Transport Institute of the TUDelft. We want to invite all colleagues to submit an abstract by no later than **December 12, 2014**. Abstracts should have no more than 400 words (plain text only).

<http://www.ewgt2015.org>

Special Sessions

In this edition we also invite proposals for special sessions in the conference as a supplement to the regular program for EWGT 2015. Each special session should provide an overview of the state-of-the-art and highlight important research directions in a field of special interest to EWGT participants. It should be a focused effort rather than defined broadly. Each special session should comprise 5 papers. The following information should be included in the proposal:

- Title of the proposed special session
- Names/affiliation of the organizers (including brief bio and contact info).
- Session abstract (state significance of the topic and the rationale for the proposed session).
- List of invited papers (including a tentative title and author list).

All papers in the proposed session will be reviewed through the same review process as the regular papers of the conference to ensure that the contributions are of high scientific quality. If a special session has more than 5 papers being accepted, some of the papers will be moved to the regular paper sessions of the conference. Proposals will be evaluated based on the timeliness of the topic and relevance to the EWGT, as well as the qualifications of the organizers and quality of papers in the proposed session. Once the proposal has been approved, the organizer(s) as well as the special session co-chairs will arrange the review process. Please send your proposal to: specials@ewgt2015.org

Important dates and deadlines

- Deadline submission abstract - December 12, 2014.
- Notification of acceptance - January 30, 2015.
- Paper Submission - March 30, 2015.
- Notification of acceptance (rejected, accepted, accepted with modifications) - May 2015.
- Submission of the final version of accepted papers (full papers) - June 15, 2015.
- Registration deadline to present at EWGT - July 6, 2015.

ELAVIO XIX

EURO Sponsorships

Quito, Ecuador, February 23-27, 2015

EURO is pleased to announce the travel-sponsorship of up to two participants to join the XIX ELAVIO - Latin-American Summer School in Operations Research (<http://www.math.epn.edu.ec/elavio2015/index.php/en/>). Participants must be studying in a EURO member country - please see <http://www.euro-online.org/web/pages/1457/member-societies>

The XIX ELAVIO will take place in Quito, Ecuador, February 23 - 27, 2015.

The ELAVIOs are schools supported by ALIO (the Latin-Iberoamerican Association of Operations Research) and are mainly addressed to young researchers and postgraduate students (both at the PhD and master level) from Latin-Iberoamerican countries. However, Ph.D. students from all over the world with excellent skills and special interest in the areas of Operations Research, Informatics, and Applied Mathematics are also welcome to apply.

The ELAVIO 2015 will be hosted at the Escuela Politecnica Nacional (EPN) in Quito, the capital city of Ecuador, from February 23th to 27th, 2015. The two million inhabitants city has a rich cultural and touristic offer that will significantly enhance the ELAVIO 2015 experience for all participants. Besides of one of the largest colonial old towns in Latin-America, there are various museums to visit, and a cable car which can bring tourists above the 4,000 meters barrier. Additionally, several touristic destinations in the Ecuadorian Andes can be reached within one-day trips.

ELAVIO 2015 will include mini-courses, invited talks, as well as discussion panels where participants can share their research advances, open problems, and related issues. Selected contributed papers from participants will be presented in special tracks.

Research topics of the school include, but are not limited to:

1. Combinatorial optimization and polyhedral theory.
2. Nonlinear optimization.
3. Modeling with linear and nonlinear integer programs.
4. Applications to problem solving in the areas of sustainability, environmental care, logistics, fishery, agriculture, engineering and production, among others.

The official languages of the school are: English, Spanish, and Portuguese. Talks and lectures will be either in English or in Spanish (in the latter case with English slides). Candidates selected MUST be proficient in both Spanish and English. More details with regard to this topic will be published on the website.

REGISTRATION AND GRANTS:

Students interested in applying for travel grant must send the following documents (pdf file format) to their National OR Society:

- short curriculum vitae to include evidence of language proficiency in Spanish and English;
- a recommendation letter from an academic of the applicant's university or institute;
- summary (max. 2 pages) of a work to present at the school in case of acceptance.

After selecting the best candidate the National OR Society will send his/her document with a short recommendation letter to:

Professor Jacek Blazewicz
IFORS Vice President for EURO
Poznan University of Technology
Institute of Computing Science
60-965 Poznan, Poland
Tel: +48-61-8790 790
Fax: +48-61-8771 525
Email: jblazewicz@cs.put.poznan.pl

Important dates:

1/11/2014 deadline for applications to be sent to National OR Society;
30/11/2014 deadline for the National Society to submit the candidates to the IFORS VP;
10/12/2014 - submission of the candidates to ELAVIO organizers;
18/01/2015 - deadline for confirming participation
23-27/02/2015 - ELAVIO XIX.

The accepted candidates will receive the travel grant from EURO and accommodation grant from ELAVIO.

EURO Mini Conference

"Improving Healthcare: New Challenges, New Approaches"

Coimbra, Portugal, March 30 - April 1, 2015

We would like to welcome you to Coimbra, a beautiful city in Portugal, and its University recently recognized as World Heritage by UNESCO.

Scope and Objectives

Recent advances in medicine allow us to live longer and healthier lives. These advances have been made possible through the joint contribution of very different scientific fields. Healthcare is nowadays better understood as a multidisciplinary field, with increasing number of challenges that can be better tackled by joint collaboration of researchers with different scientific backgrounds.

The challenges that Healthcare is facing have not only to do with the ability of providing better services to all (treatments, preventive medicine, better diagnosis tools), with an increased focus on improved personalized treatment options, but also with the need to tackle an increased pressure felt by Healthcare systems: increased number of patients, some of them requiring expensive treatments, with a consequent increase in the workload for health institutions that most of the times have to deal with important budget restrictions.

The Conference will provide a forum in which researchers coming from different scientific disciplines can discuss and share their experience regarding methodological approaches to tackle different Healthcare challenges. Contributions from operational research, industrial engineering, medicine, medical physics, management, computational biology, bioinformatics, health economics among others are welcomed.

Streams

If you are interested in organizing a stream please let us know (info@minieuro2015.com).

Confirmed streams:

- Health Informatics
- Radiotherapy Optimization
- Biomedicine
- Health Logistics and Scheduling

Confirmed Plenary Speakers

Sally Brailsford, University of Southampton

David Craft, Harvard Medical School Massachusetts General Hospital

Ben Heijmen, Erasmus MC Cancer Institute and Erasmus University Rotterdam

Alexandre Quintanilha, Instituto de Ciências Biomédicas Abel Salazar

Submissions:

Authors are invited to submit an abstract with not more than 350 words or a full paper (4 to 10 pages) to be published in the conference proceedings (Journal of Physics: Conference Series (JPCS)).

After the conference, authors of accepted abstracts and papers can submit extended versions of their work to special issues:

- International Transactions in Operational Research
- Journal of Global Optimization (subject to a sufficient number of submissions)

Important Dates:

Submission of Abstracts/ Papers: 17 October 2014

Notification of acceptance: 15 December 2014

Final abstract/paper due: 09 February 2015

Early Registration Deadline: 02 March 2015

Registration

Full Early registration 225€

Full Late registration 300€

Student Early registration 100€

Student Late registration 120€

EURO MINI CONFERENCE

COIMBRA | 30 MARCH - 1 APRIL 2015

IMPROVING HEALTHCARE: NEW CHALLENGES, NEW APPROACHES

EURO Summer Institute

Online Optimization

Szeged, Hungary, June 15-27, 2015

EURO

The Association of European
Operational Research Societies

The OR Society of Hungary is pleased to announce a EURO Summer Institute (ESI) on Online Optimization. The ESI will take place at University of Szeged, from 15th to 27th June in 2015, and the homepage of the event can be found at <http://www.eswi.u-szeged.hu>.

Theme

In online optimization, an algorithm must make its decisions based only on past events without any solid information about future data. Such algorithms are called online algorithms. Since an online algorithm makes its decisions based only on partial information, without knowing the whole instance in advance, we cannot expect it to give the optimal solution that can be produced by an algorithm that has all the necessary information. This is why the output of each of these algorithms should be compared with those produced by using optimal offline algorithms. Contributions on closely related areas like semi-online optimization and online aspects of algorithmic game theory are also welcomed from the students. The senior keynote speakers will cover the recent results and solution techniques of some special topics (bin packing, scheduling, clustering, generalizations of competitive analysis) and also discuss open problems of the area.

Location

The Summer Institute will be organized at Szeged. This city is the seat of Csongrád County and the Dél-Alföld region and it is one of Hungary's economic, educational and cultural centers. The city is located in South-East Hungary about 170 km far from Budapest, it is close to the Serbian and the Romanian borders. The event will be organized at the University of Szeged, which is one of Hungary's most distinguished universities. The university is located in the center of the city, many of the faculties are placed in old historical buildings.

Background

EURO Summer and Winter Institutes (ESWI) provide an excellent forum for PhD students and early career researchers to discuss their research at length with experts in the field, as well as forming links with other early stage researchers. For further details, see <http://www.euro-online.org/web/pages/458/summerwinter-institutes>.

Format of ESWI

Around twenty early stage researchers from the EURO member societies will be invited to participate at the ESWI. They must be very early career academics (PhD students and/or those who have less than two years research experience post PhD). They have to present the material of an unpublished piece of work, discussing it with others and with the invited senior experts in the field. The ESI will also present a series of lectures by the invited senior experts. After the ESI, the papers can be submitted to a special issue of an OR publication (TBA).

Apart from the senior experts, no one can participate in an ESWI more than once in their lifetime.

Participation in an ESWI should be regarded as a great honour. In other words, the main objective of an ESWI is to provide a limited number of carefully selected representatives of the next generation with a unique opportunity to establish a personal network and address an international audience; and thus create new research groups around the chosen topic.

EURO provides a substantial contribution towards all the ESWI expenses 'on location' (room and board, social programs, etc.) and sponsorship is being sought to meet the remaining part of these expenses. The travel costs, however, must be borne by the participants themselves, eventually with the support of their national OR societies. Applicants have to submit an unpublished paper to the Scientific Committee, along with a curriculum vitae. The Committee will select and rank the candidates on the basis of submitted papers, and afterwards channel this information to the national OR societies for funding decisions. Candidates who fulfil the eligibility rules but exceed the quota of 20 participants might be accepted, in a limited number, in the ESWI. These candidates should cover their own expenses. Fees will be also required, but their amount will be specified later.

Interested candidates are asked to notify us in advance in order to help us assess the likely number of participants. Please send an email to esi15@inf.u-szeged.hu if you are planning to submit a paper.

Important dates

30th September 2014 deadline for interested candidates to notify us

31st January 2015 deadline for submission of applications

15th March 2015 selection of Candidates by the Scientific Committee and communication to the National OR Societies

15th June - 27th June 2015 ESWI at the University of Szeged

30th September 2015 submission of final versions of papers for publication in the special issue

Sponsorship available for delegates coming from non-EURO member societies

The office of the IFORS Vice President for EURO is pleased to announce the sponsorship of a participant to join the EURO Summer Institute (ESIXXXII) on Online Optimization to be held in Szeged, Hungary, June 15 - 27, 2015. The deadline for applications is **November 30, 2014**. The selected IFORS-EURO scholar will receive joint sponsorship from IFORS and EURO. IFORS will sponsor the travel costs of the delegate coming from non-EURO member society. Please see the [webpage](#) for further information.

Operational Research Practice in Africa Conference 2015

ORPA'2015

Algeria, Africa, April 20-22, 2015

Operational Research Practice in Africa

We are pleased to give notice of the above OR conference scheduled for Algiers in April 2015, at the University of Sciences and Technology Houari Boumediene. ORPA'2015 follows on from a series of meetings started in 2005. The conference is intended to bring academics to discuss and present recent developments in our field, and OR applications. A non-exhaustive list of applied topics are : OR in Transport and Logistic, Urban Transport Network Design, Public Transportation Studies, Traffic Control, Multimodal Freight Network Design, OR in Water Resources Management, Management and Control of Delivery Water Resource, OR in Energy and Environment Management, Renewable Energy System, Optimization in Sustainable Development, OR in Natural Resources Management, Operational Research Models in the Management of Agricultural Resources, Operational Research Models in the Management of Forestry Resources, etc. These applications are fundamentally based on theoretical OR and Optimization topics also in the scope of the conference. A non-exhaustive list of such topics are: Integer Programming (linear, quadratic, non-linear), Multicriteria Optimization, Global Optimization, Stochastic Programming, Scheduling, Facility Location Problems, etc. We also invite submissions covering other topics related to OR for development as well as OR applications in government and industry.

All details of the meeting are available on the conference web site :

<http://orpa2015.sciencesconf.org/>

***Key dates* :**

October 5, 2014 : Deadline for submission of extended abstracts

January 20, 2015 : Deadline for early registration

15th IFAC/IFIP/IEEE/IFORS Symposium on Information Control Problems in Manufacturing (INCOM 2015)

Ottawa, Canada, May 11-13, 2015

The premiere IFAC event in logistics and manufacturing, co-sponsored by IFIP, IFORS, IEEE - the triennial symposium INCOM 2015 - is approaching at a fast pace, see www.incom2015.org

The next step is the submission of invited sessions.

CALL FOR INVITED SESSIONS

The submission procedure for invited sessions is as follows:

- submission of a proposal (one page maximum) to the Program Chair
- if the proposal is approved, registration of the session on the PaperCept site: <http://ifac.papercept.net/conferences/scripts/start.pl>
- providing the session code to the potential authors
- submission of papers by the authors, with the codes.

An invited session is composed of 5 to 6 papers on a focused topic.

THE DEADLINE FOR INVITED SESSION PROPOSALS

October 1, 2014

Please do not hesitate to submit your proposals

Best regards,

Alexandre Dolgui

Program Chair of INCOM 2015, Editor-in-Chief of IJPR

www.emse.fr/~dolgui

We sincerely welcome our colleagues worldwide to join us for INCOM 2015 in Canada's capital city on May 11-13, 2015.

Canadian Operational Research Society/
Institute for Operations Research and the
Management Sciences

CORS/INFORMS 2015

Montreal Canada, June 14-17, 2015

<http://meetings2.informs.org/montreal2015/>

We invite you to submit a paper for 2015 CORS-INFORMS International Meeting and join us for a premier conference in this vibrant city. We invite submissions in all areas of the ORMS field, broadly defined. Abstracts received by **January 16, 2015** will receive preference in scheduling. We will continue to accept abstracts after the deadline for as long as space is available. We encourage you to submit early.

[Submit online](#)

INFORMS Computing Society

ICS 2015 Conference

Richmond, Virginia, January 11-13, 2015

The 14th INFORMS Computing Society Conference will take place January 11-13, 2015, at the Omni Richmond Hotel in Richmond, Virginia, USA.

The INFORMS Computing Society (ICS) is soliciting papers and presentations for its fourteenth conference. ICS is focused on contributions at the interface of computer science, artificial intelligence, operations research, and management science. The conference organizers invite submissions discussing novel theoretical and applied research consistent with the ICS focus. They encourage submissions on this year's conference theme - "Operations Research and Computing: Algorithms and Software for Analytics."

The deadline for submission of presentation and poster abstracts is **October 20, 2014**.

The authors of a limited number of full-length journal articles will be invited to submit their papers for publication in the INFORMS Journal on Computing, the tentative deadline for submission of papers is **May 19, 2014**.

For more information and updates, see the conference website [here](#) or contact borchers@nmt.edu.

DEA2015: 13th International Conference on Data Envelopment
Analysis

Braunschweig, Germany, August 24-28, 2015

The organizers of the 13th International Conference on Data Envelopment Analysis have the great pleasure of inviting you to participate in the DEA2015 Conference to be held at the Technische Universität (TU) Braunschweig, Germany, on August 24 to 28, 2015.

Being the eldest of its kind in Germany, the TU Braunschweig possesses a 250-year tradition of research and teaching. It is located close to the center of Braunschweig, a dynamic city founded in the early middle ages which lies at the foot of the Harz, a lovely low mountain range.

In this pleasant environment, DEA2015 plans to bring together researchers and practitioners interested in the development of the DEA methodology and its applications to performance management in both public and private sectors. Theoretical and empirical papers on DEA and related fields in efficiency and productivity analysis are also invited.

<http://www.deaconference.com/dea2015>

Mathematical Optimization Society

Fulkerson Prize 2015

Mathematical
Optimization Society

The Fulkerson Prize Committee invites nominations for the Delbert Ray Fulkerson Prize, sponsored jointly by the Mathematical Optimization Society (MOS) and the American Mathematical Society (AMS). Up to three awards of US \$1,500 each are presented at each (triennial) International Symposium of the MOS. The Fulkerson Prize is for outstanding papers in the area of discrete mathematics. The prize will be awarded at the 22nd International Symposium on Mathematical Programming to be held in Pittsburgh, USA on July 12-17, 2015.

Eligible papers should represent the final publication of the main result(s) and should have been published in a recognized journal or in a comparable, well-refereed volume intended to publish final publications only, during the six calendar years preceding the year of the Symposium (thus, from January 2009 through December 2014). The prizes will be given for single papers, not series of papers or books, and in the event of joint authorship the prize will be divided.

The term "discrete mathematics" is interpreted broadly and is intended to include graph theory, networks, mathematical programming, applied combinatorics, applications of discrete mathematics to computer science, and related subjects. While research work in these areas is usually not far removed from practical applications, the judging of papers will be based only on their mathematical quality and significance.

Previous winners of the Fulkerson Prize are listed here

<http://www.mathopt.org/?nav=fulkerson#winner>.

Further information about the Fulkerson Prize can be found at:

<http://www.mathopt.org/?nav=fulkerson> and

<http://www.ams.org/profession/prizes-awards/ams-prizes/fulkerson-prize>.

The Fulkerson Prize Committee consists of

Michele Conforti (Dipartimento di Matematica, Universita' di Padova, chair)

Friedrich Eisenbrand (Department of Mathematics, EPFL, Lausanne)

Egon Schulte (Department of Mathematics, Northeastern University, Boston)

Please send your nominations (including reference to the nominated article and an evaluation of the work) by February 15th, 2015 to the chair of the committee. Electronic submissions to conforti@math.unipd.it are preferred.

Michele Conforti

Dipartimento di Matematica

Universita' di Padova

via Trieste 63,

35121 Padova- Italy

e-mail: conforti@math.unipd.it
